

Training Fees

CEH Classes

8-hr CEH class

\$200/attendee

\$150/ AWPCA member

(\$50.00 discount applies to CEH classes only)

Utility/Municipality standard flat fee - \$1350/ 8-hr class

(Individual AWPCA discount does not apply/ Up to 20 attendees per class)

Certification Courses

48-hr. Wastewater Operator Certification (Grades 1 – 4)

\$480/Student

48-hr. Water Operator Certification (Grades 2– 4)

\$480/Student

24-hr. Wastewater Collection System Operator
Certification (Grade IC)

\$300/Student

24-hr. Water Distribution System Operator Certification
(Grade I)

\$300/Student

*These courses can be customized for the utility/municipality;
minimum number of students required; see AWPCA website
for details.*

Certification Exam Review Classes

16-hr. Wastewater Operator Certification Exam Review
(Grades 1 – 4)

\$300/Student

16-hr. Water Operator Certification Exam Review
(Grades 2 – 4)

\$300/Student

8-hr. Wastewater Collection System Operator
Certification Exam Review (Grade IC)

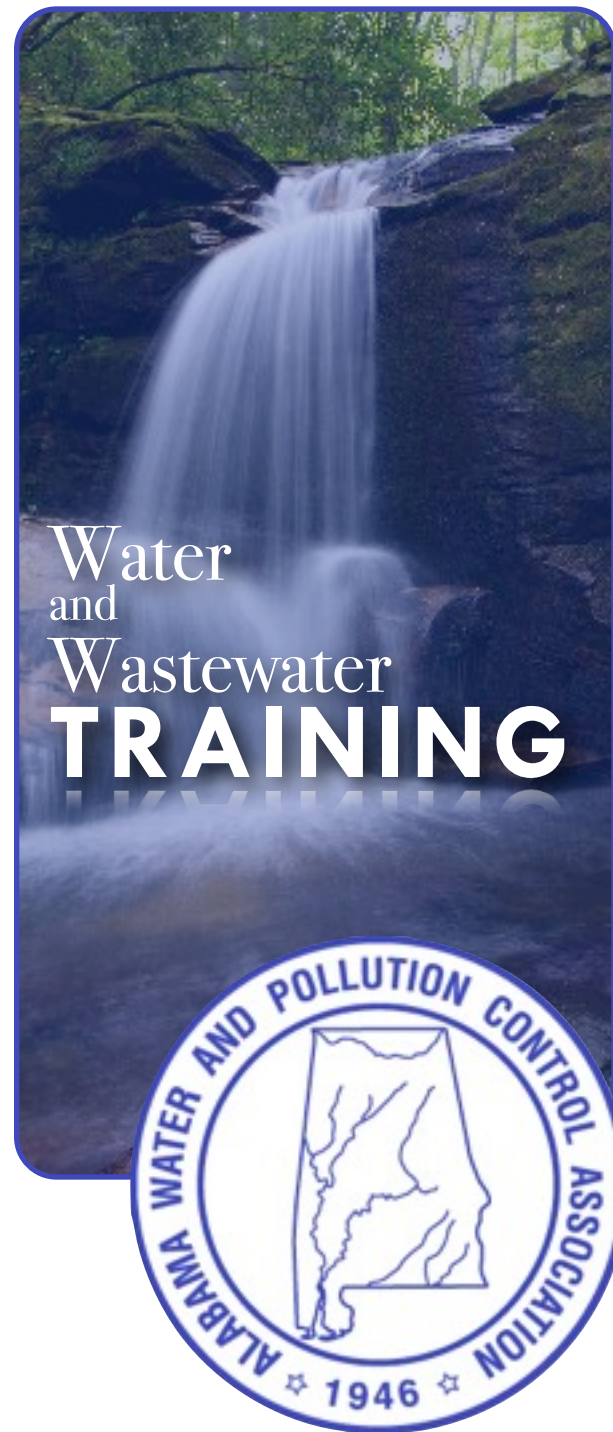

\$175/Student

8-hr. Water Distribution System Operator Exam Review
(Grade 1)

\$175/Student

*These classes can be customized for the utility/municipality;
minimum number of students required;see AWPCA website for
details.*

AWPCA

AWPCA, created in 1946, is Alabama's oldest water/wastewater operator organization. For 63 years, AWPCA has been a leader in supporting and providing water/wastewater training opportunities. Today, AWPCA is committed to offer ongoing water/wastewater training that encompasses;

- Continuing education hours (CEH)
- Certification courses (based on the Sacramento manuals)
- Certification exam review classes
- ADEM approved safety classes for CEH's

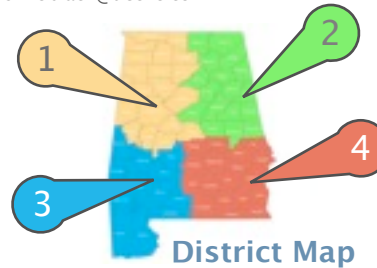

Classes and certification courses will be posted on the AWPCA website training calendar at www.AWPCA.net.

Please visit and bookmark our website for CEH classes and certification courses that will be added in the coming months.

AWPCA has contracted with Utility Engineering Consultants LLC for Sharon Knobloch to conduct water/wastewater training throughout the state of Alabama.

AWWA estimates 50% of all water/wastewater operators will retire in the next 5-7 years.

The future is now!

American Water Works Association

Many utilities/municipalities in Alabama are experiencing difficulties in finding and hiring certified operators.

Also, as of September 30, 2008, federally financed free water/wastewater operator training administered through various Alabama water and/or wastewater associations ended with no additional federal or state funding in the foreseeable future.

ADEM urges all utilities/municipalities to consider operator training a priority item in their operating budgets, thus ensuring the re-certification of their operators and the training of new operators to meet their future needs.

AWPCA offers the utility/municipality/entities a standard flat fee for an 8-hr CEH class that allows your utility to;

- Hold classes at your facility
- Schedule training dates and class times tailored to your work schedule
- Develop CEH training programs to meet your operator needs
- Supplement in-house training programs.
