

Birmingham, Alabama

Wastewater Operator

EMC is an environmental service company located in Birmingham that operates in the northern two-thirds of Alabama. We're currently looking for a state-certified wastewater operator (Grade II or higher).

Duties will include:

- Being responsible for the operation of small to medium sized wastewater treatment plants, lagoons, and pump stations.
- Performing on-site testing for both operational control and compliance purposes.
- Performing routine maintenance on treatment plant and pump station equipment.
- Being able to troubleshoot electrical and mechanical problems at treatment plants. You don't have to be an electrician, but you'll need to be able to identify electrical problems.
- Maintaining proper records including operator logbooks and chain-of-custody documentation of samples.
- Collecting proper compliance samples.

Job requirements:

- Grade II Wastewater Operators Certificate
- Alabama drivers license and have an insurable driving record
- Good mechanical abilities
- Good "people skills"

Salary will be dependant on experience. EMC's benefits include vacation days, sick days, 10 paid holidays, BC/BS insurance (with dental), and a retirement plan.
