

# AWPCA's Water Technical Dispatch

March  
2011

## THINGS TO DO:

*As a water system operator, we should have the following things on our mind and in action now:*

1. **Consumer Confident Reports (CCR)** – Due to your wholesale systems by April 1. Due to all of your customers and ADEM by July 1.
2. **DBP-Stage 2 Monitoring Plans** – Due to ADEM by 8/1/2011. Please contact your laboratory for Stage 2 sampling schedules.
3. Prepare your system for the summer time demands. It just might be a long dry summer. Are you ready?
4. **WTP** – Basin/Filter/Pump Cleaning and Maintenance
5. **Distribution** – Flushing and leak detection/repair; Pump, Valve, and Hydrant Maintenance/Repair.
6. **Stage 2 Compliance** – January 1, 2012 is ten months away. Have you been looking at your LRAA? Are you meeting compliance? If not, what are you doing to get there?
7. **Training Schedules** for all of your staff. Keeping CEH's current?  
- April 12, 2011 - AWPCA Security Meeting; Cullman, AL
